Don't remove 'LINE-SHARING' (high frequency portion of voice lines).

This is the only means of bringing competition into the local residential DSL market.

Any fool can see that.

Andrew McNeill.

Subject: FCC promote media diversity

Dear Commissioner Powell:

Numerous reports agree that the Federal Communications is planning to loosen longstanding rules governing control of the media that bring news and views to the American public. This will inevitably lead to monopoly, by a few large corporate giants, of TV stations, newspapers, and broadcast networks.

I urge you, Commissioner Powell, to halt immediately any implementation of these these FCC plans that threaten public access to diverse views and information.

Sincerely,

Drew Nicholson

The Federal Communications Commission is considering taking actions that will restrict consumer choice by deregulating local phone service.

Millions of Americans like me could have their phone service threatened if the local phone companies aren't required to allow competitors access to the market. I'm also concerned about the Commission's move to relieve all broadband Internet access facilities of open access obligations.

Both of these key decisions will limit my choices as a consumer by lessening competition, diminishing cost savings and threatening consumer protections. As a constituent, I urge you to support competition and open access for local phone service.

Sincerely,

Aaron Strauss
